SUMMARY

Final-year B.Sc IT student at Mumbai University with hands-on internship experience shipping production features. Build full-stack web applications using React, Node.js, Python (FastAPI), and MongoDB, with working knowledge of Docker, CI/CD, and security monitoring. Seeking a Software Developer / Full Stack role to ship features end-to-end and contribute to platform reliability.

EXPERIENCE

Software Developer Intern
Seema Systems · Mumbai, India

Jun 2025 - Sep 2025

- Built and shipped full-stack features across the company's internal product (React, Node.js, MongoDB).
- Designed and implemented REST APIs with request validation, error handling, and clear contracts.
- Owned MongoDB schema design and query optimization — reduced read latency on key endpoints.
- Wrote SQL queries, debugging scripts, and unit tests; participated in code reviews and deployments.
